Expanding the products' range

In order to keep the **market leadership** and to **fight the market slowdown of the period 2002-2003**, Cembre had sensibly **increased the range of products offered** through:

- **research activities** mainly focused on the **development of innovative products** for the **sectors with the highest growth potential** (rail transportation, civil and industrial plant engineering)
- **improvement and update of existing products** to get them easier to use and more efficient in their performances
- **widening of traditional products range**, now richer and more complete thanks to the **introduction of complementary product** (f.i.cable markers)

Electrical connectors

- Turnover as at December 31, 2005: Euro 25.8 millions (+2.3% vs. December 31, 2004)
 - 54.8% Italy
 - 45.2% foreign countries (41.6% in Europe and 3.6% outside Europe)

- Characteristics:
 - **high and safe performance** guaranteed by effective **Quality Control** during production process
 - **high level automation** of manufacturing and consequent costs reduction
 - **quick adaptation** of products to clients' needs, thanks to its **high flexible productivity**

Tools

- Turnover as at December 31, 2005: Euro 15.6 millions (+3,1% vs. December 31, 2004)
 - 24.8% Italy
 - 75.2% foreign countries (56.8% in Europe e 18.4% outside Europe)

- Characteristics:
 - **quick installation** of connectors thanks to tools used for compressing and cutting the conductors
 - **wide products range**: mechanical, pneumatic, hydraulic and electric based operations
- Development of new products in last two years:
 - **hydraulic battery operated pump** already marketed in Italy and Europe
 - the **new generation of battery tools** is intended to progressively substitute the traditional ones, as they are **more appreciated** thanks to the **elimination of physical endeavour**

Railway products

- Railway products and accessories, turnover as at December 31, 2005: Euro 16.9 millions (+25.9% vs. December 31, 2004)
